

RETRACTABLE EQUIPMENT INSPECTION
(BEFORE EACH USE)

BAD

D-Ring will not close properly because of force from fall.

BAD

Impact indicator (on hook) ruptured, showing unit was involved in a fall. (See red indicator line)

GOOD

Impact indicator should look like this.

Once involved in a fall, these units are designed to tear the inside gears to slow down a fall. They will not work properly after they have been involved in a fall. Inspect all fall protection equipment before each use and tag it out of service if you have any concerns on its condition.

REMEMBER: RED IS BAD
